## 1. PURPOSE AND SCOPE

### 1.1. Proposal

This Anti-Corruption Policy establishes Gapblue Software Labs Pvt Ltd.'s unwavering commitment to conducting business with the highest standards of integrity, transparency, and ethical conduct. As a leading technology service provider with 15 years of experience in digital transformation, custom solutions, and cutting-edge technologies including generative AI, we recognize that ethical conduct is fundamental to maintaining client trust and delivering quality results. This policy operates in conjunction with our Code of Conduct and reinforces our commitment to truth, fair dealing, and the corporate values that define our organization.

### 1.2. Scope

This policy applies to all personnel covered under our Code of Conduct across all our service delivery locations:

#### **Personnel Coverage:**

- All employees at Ravipuram and Infopark office locations
- Officers and Directors
- Consultants and Contractors working on client projects
- Sales and Marketing Teams
- Implementation and Integration Teams
- Application Management and Support Teams
- Third-party representatives, agents, and business partners

### 1.3. Service and Product Coverage:

- **Services:** Consultation, Implementation, Integration, Upgrade/Rollout, Validation & QA, Application Management
- **Solutions:** ERP, BI & Analytics, Custom Applications, Automation, Gnie Platform
- **Products:** TimeGnie, GoalsGnie, Gnie-E platforms, Gnie Botomation, Gen AI Solutions
- All personnel involved in R&D and emerging technology development

### 1.4. Integration with the Code of Conduct

This policy reinforces and expands upon the principles established in our Code of Conduct, particularly:

- **Integrity:** Acting honestly and uprightly in all dealings
- **Fidelity:** Safeguarding company and client information

- **Corporate Values:** Upholding our commitment to honesty, loyalty, and ethical business practices

## 2. POLICY STATEMENT

In alignment with our corporate values, Gapblue Software Labs Pvt Ltd maintains **zero tolerance** for corruption. We are committed to:

- **Honesty:** Building trust through transparent and truthful business practices
- **Hard Work:** Achieving results through legitimate means and ethical conduct
- **Loyalty:** Maintaining fidelity to our clients, colleagues, and legal obligations
- **Cooperation:** Working together to maintain the highest ethical standards
- **Business Mindedness:** Conducting profitable business through ethical means
- **Excellence:** Being the best through integrity and compliance

## 3. KEY DEFINITIONS

**Anti-Corruption:** Prevention of bribery, fraud, embezzlement, and other corrupt practices that violate our commitment to integrity and fair dealing.

**Bribery:** Offering, promising, giving, accepting, or soliciting anything of value to influence business decisions, secure contracts, or gain unfair advantage - directly contradicting our corporate value of honesty.

**Client Confidentiality:** Protection of client data, business processes, and proprietary information across all our services including ERP implementations, BI & Analytics, Custom Applications, and Gen AI Solutions, as outlined in our Data Protection and Declaration of Secrecy provisions.

**Digital Transformation (DX) Services:** Consultation, implementation, and integration services that help organizations harness emerging technologies while maintaining ethical standards.

**Gnie Platform Solutions:** Our proprietary productivity and efficiency tools including TimeGnie, GoalsGnie, Gnie-E for Oracle eBusiness Suite, Gnie-E for Agile PLM, and Gnie Botomation.

**Gen AI Solutions:** Our artificial intelligence offerings including Website Summarization, Document Classification, Azure-based Custom ChatGPT, Data Insights, and Invoice Scanning tools, etc.

**Corruption:** Abuse of entrusted power for private gain, including activities that would violate our corporate values and ethical standards.

**Facilitation Payments:** Payments made to expedite routine processes - prohibited under our commitment to honest business practices.

**Gratifications:** Cash or kind benefits that may influence business decisions, as specifically prohibited in our Code of Conduct.

**Whistleblowing:** Reporting mechanism for disclosing concerns about wrongdoing, as established in our existing whistleblowing procedures.

## 4. PROHIBITED ACTIVITIES

### 4.1. Bribery and Corruption

In accordance with our Code of Conduct's prohibition on gratifications, the following are strictly forbidden:

- Offering, accepting, or paying gratifications or favours in cash or kind
- Making improper payments to influence client decisions or secure contracts
- Providing unauthorized benefits to government officials or business partners
- Using company resources or client information for personal gain
- Engaging in any illegal, fraudulent, dishonest, or unethical behaviour

### 4.2. Facilitation Payments

- All facilitation payments are prohibited as they violate our commitment to honest dealing
- Employees must report any demands for such payments through our established whistleblowing procedures
- Alternative legal channels must be pursued for routine administrative processes

### 4.3. Misuse of Confidential Information

Building on our Declaration of Secrecy and Data Protection policies:

- Using confidential company or client information for corrupt purposes
- Disclosing sensitive information in exchange for personal benefits
- Leveraging client lists, technological data, or business plans for improper gain
- Compromising data security for financial or personal advantage

### 4.4. Technology and Service Integrity Violations

Activities that compromise our 15-year reputation for quality and innovation:

- Misrepresenting capabilities of Gnie Platform products or Gen AI Solutions
- Providing false information about ERP, BI & Analytics, or Custom Application capabilities

- Compromising quality standards in consultation, implementation, or integration services
- Unauthorized access to or manipulation of client systems during upgrade/rollout projects
- Falsifying validation & QA results or application management reports
- Using proprietary R&D information for unauthorized personal or competitive advantage
- Engaging in anti-competitive practices in the technology services market

## 5. GIFTS, ENTERTAINMENT, AND GRATIFICATIONS

### 5.1. Alignment with Code of Conduct

Our existing Code of Conduct prohibits "accepting or paying gratifications or favours in cash or kind directly or indirectly that may influence business." This policy provides specific guidance on implementation.

### 5.2. Acceptable Practices

Limited exceptions that do not constitute gratifications:

- Modest promotional items of minimal value (under ₹3,000)
- Reasonable business meals during legitimate client meetings
- Cultural or ceremonial gifts where refusal would cause genuine offense
- Industry conference materials and standard hospitality

### 5.3. Prohibited Practices

- Cash payments or cash equivalents of any amount
- Expensive gifts, entertainment, or hospitality
- Personal favors or services that create obligations
- Any gift or benefit that could influence business decisions
- Items that violate client policies or procurement procedures

### 5.4. Pre-Approval Requirements

- All gifts and entertainment exceeding ₹1,000 require prior approval
- Government official interactions require HR and legal approval
- Client gift policies must be verified before offering any items
- Documentation required for all approved gifts and entertainment

## 6. CLIENT RELATIONSHIP INTEGRITY

### 6.1. Honest Dealing with Clients

Reinforcing our corporate value of honesty and 15-year track record of quality delivery:

- Provide accurate information about capabilities and limitations of our services and solutions
- Maintain transparent pricing for consultation, implementation, integration, and ongoing support
- Deliver Gnie Platform products and Gen AI Solutions as contractually specified
- Ensure realistic timelines for upgrade/rollout and custom application projects
- Provide honest validation & QA reports and application management updates
- Protect client confidential information across all service touchpoints
- Report any inappropriate requests from clients through proper channels

### 6.2. Data Protection and Client Confidentiality

Building on our existing Data Protection provisions for comprehensive service delivery:

- Maintain strict confidentiality of client data across ERP, BI & Analytics, and Custom Applications
- Secure proprietary information accessed during consultation and integration projects
- Protect intellectual property developed during R&D and emerging technology initiatives
- Prevent unauthorized access to TimeGnie, GoalsGnie, and other Gnie Platform client data
- Ensure secure handling of data in Gen AI Solutions including document processing and analysis
- Report any data breaches or security incidents immediately to management
- Never use client information accessed through our services for personal or unauthorized gain

### 6.3. Professional Conduct Standards

- Maintain professional behavior in all client interactions
- Avoid conflicts of interest that could compromise client relationships
- Ensure fair competition and avoid anti-competitive practices

- Uphold company reputation through ethical conduct
- Follow established communication protocols for client matters

## 7. THIRD-PARTY RELATIONSHIPS AND DUE DILIGENCE

### 7.1. Business Partner Evaluation

Before engaging third parties, conduct due diligence to ensure they:

- Share our corporate values and ethical standards
- Have no history of corrupt practices or legal violations
- Maintain appropriate business credentials and reputation
- Comply with applicable anti-corruption laws
- Support our commitment to honest and ethical business practices

### 7.2. Contractual Requirements

All third-party agreements must include:

- Compliance with this Anti-Corruption Policy and Code of Conduct
- Commitment to honest dealing and ethical business practices
- Confidentiality and data protection obligations
- Right to audit and monitor compliance
- Termination rights for violations of ethical standards

### 7.3. Ongoing Monitoring

- Regular compliance reviews aligned with our corporate values
- Investigation of any red flags or concerning behavior
- Provision of training on our ethical standards and expectations
- Immediate reporting of violations through whistleblowing procedures

## 8. FINANCIAL CONTROLS AND RECORD KEEPING

### 8.1. Accurate Financial Records

Supporting our commitment to honesty and transparency:

- Maintain complete and accurate books and records
- Ensure all transactions are properly documented and authorized
- Prohibit off-the-books accounts, false entries, or misleading information

- Implement robust internal controls over financial reporting
- Regular audits to ensure compliance with ethical standards

#### 8.2. Expense and Procurement Management

- Proper approval required for all business expenses
- Transparent documentation of client-related costs
- Fair and competitive procurement processes
- Prevention of kickbacks or secret commissions in purchasing
- Regular review of vendor relationships and payments

## 9. TRAINING AND COMMUNICATION

### 9.1. Integration with Corporate Values

Anti-corruption training will reinforce our corporate values:

- **Honesty:** Building trust through transparent practices
- **Loyalty:** Maintaining fidelity to ethical principles
- **Cooperation:** Working together to uphold standards
- **Excellence:** Achieving success through ethical means

### 9.2. Training Requirements

- Initial training for all new employees alongside Code of Conduct orientation
- Annual refresher training integrated with corporate values reinforcement
- Role-specific training for high-risk positions (sales, client-facing roles)
- Specialized training for employees working with government entities

### 9.3. Communication Strategy

- Regular reinforcement of corporate values and ethical standards
- Integration with existing internal communication channels
- Clear guidance on practical implementation of anti-corruption measures
- Ongoing support and resources for employees

## 10. REPORTING AND WHISTLEBLOWING

### 10.1. Integration with Existing Procedures

This policy utilizes our established whistleblowing procedures for reporting corruption concerns, including:

- Theft of any kind
- Fraudulent or false statements relating to financial matters
- Breaches of legal or regulatory requirements
- Concealment of wrongdoing
- Failure to adopt company policies

#### 10.2. Reporting Channels

Employees can report anti-corruption concerns through existing channels:

- **Line Manager:** Direct supervisor for immediate concerns
- **HR Department:** Hr.support@gapblue.com
- **Anonymous Reporting:** whistleblower@gapblue.com
- **Compliance Officer:** Sreelakshmi Aravind

#### 10.3. Additional Corruption-Specific Concerns

Report immediately:

- Requests for bribes or improper payments
- Offers of gratifications or inappropriate gifts
- Pressure to engage in corrupt practices
- Misuse of client information for personal gain
- Violations of this Anti-Corruption Policy

#### 10.4. Protection and Confidentiality

- Identity protection for good faith reporters
- No retaliation against whistleblowers
- Confidential investigation procedures
- Prior notice if identity disclosure becomes necessary for legal proceedings

## 11. CONSEQUENCES AND ENFORCEMENT

#### 11.1. Disciplinary Actions

Violations constitute a breach of terms of employment and may result in:

- Verbal or written warnings
- Suspension of employment

- Termination of employment (including immediate dismissal)
- Recovery of costs and damages
- Termination of third-party relationships

#### 11.2. Legal and Regulatory Consequences

- Civil and criminal prosecution
- Regulatory penalties and fines
- Reputational damage to individual and company
- Loss of professional licenses or certifications
- Exclusion from government contracts and tenders

## 12. GOVERNANCE AND OVERSIGHT

### 12.1. Management Commitment

Senior management will demonstrate visible commitment by:

- Modeling corporate values in all business dealings
- Providing necessary resources for compliance
- Taking prompt action on reported violations
- Regular communication about ethical expectations
- Integration of anti-corruption measures into business processes

### 12.2. Compliance Officer Responsibilities

The designated Compliance Officer will:

- Oversee day-to-day implementation of this policy
- Provide guidance and support to employees
- Conduct investigations of reported violations
- Coordinate with HR on disciplinary actions
- Report regularly to senior management

### 12.3. Employee Responsibilities

All employees must:

- Comply with this policy and the Code of Conduct
- Uphold corporate values in all business activities

- Report suspected violations through proper channels
- Participate in required training programs
- Maintain confidentiality of company and client information

## 13. RISK MANAGEMENT AND MONITORING

### 13.1. Risk Assessment

Regular evaluation of corruption risks including:

- Geographic and jurisdictional risks
- Client and industry-specific risks
- Third-party relationship risks
- Technology and data security risks
- Government interaction risks

### 13.2. Monitoring and Auditing

- Integration with existing internal audit processes
- Regular compliance reviews and assessments
- Monitoring of high-risk activities and relationships
- Corrective action plans for identified deficiencies
- External audits as deemed necessary

## 14. POLICY ADMINISTRATION

### 14.1. Policy Integration

- **Related Policies:** HR Policy Manual - Code of Conduct
- **Policy Owner:** Chief Compliance Officer
- **Approval Authority:** Board of Directors
- **Review Frequency:** Annual or as required by regulatory changes

### 14.2. Implementation

- Mandatory acknowledgment by all employees
- Integration with employee onboarding process
- Regular updates to reflect legal and business changes
